

PROFILE SUMMARY

Computer System Engineering undergraduate with hands-on experience building full stack web applications using Django REST Framework and React. Comfortable designing REST APIs, implementing authentication, and building CRUD features end-to-end. Seeking an internship to apply and grow these skills in a real-world development team.

Career Objective: To secure a challenging internship or entry-level role as a Full Stack Developer, apply my knowledge of Django, DRF, and React to real-world projects, and continue growing into a skilled, reliable software engineer.

EDUCATION

BSc (Hons) Computer System Engineering

Expected Graduation: 2027

ISMT College, Nepal — affiliated with the University of Sunderland, UK

Status: Currently Enrolled

Higher Secondary Education (+2), Science Stream

PROJECTS

Simple E-commerce Platform (DRF + React)

Django REST Framework, React (Vite), JWT, PostgreSQL, Vercel

- Built a full stack e-commerce application with a Django REST Framework backend and a React (Vite) frontend.
- Implemented JWT authentication for secure user login, registration, and protected API routes.
- Designed CRUD operations for products and orders using DRF serializers and viewsets.
- Deployed the frontend on Vercel.

GitHub: github.com/siddharthasubedi1

Electro E-commerce (Django, Template-based)

- Developed an electronics e-commerce site using Django's template engine for server-rendered pages.
- Built product listing, cart, and checkout flow with Django views and models.

Authentication System (Django + DRF)

Django, Django REST Framework, Postman, JWT (Access & Refresh Tokens)

- Built a standalone authentication system using Django and Django REST Framework covering registration, login, and logout.
- Implemented JWT-based authentication with separate access and refresh tokens for secure, stateless session handling.
- Configured token refresh and expiry handling so users remain authenticated without repeated logins.
- Tested all API endpoints — registration, login, token refresh, and protected routes — using Postman.

TECHNICAL SKILLS

- Languages & Frameworks: Python, Django, Django REST Framework (DRF), JavaScript, React (basics with Vite), HTML/CSS, C#, ASP.NET
- Databases: PostgreSQL, MongoDB (basics)
- Tools & Platforms: Git, GitHub, Postman, Vercel (deployment)
- Core Concepts: REST API design, JWT authentication, CRUD operations, Serializers

CERTIFICATIONS

- UI/UX Design — 5-Day Workshop Certificate, ISMT College
